Reasons for Allowance

1. Claims 21-33 are allowed.
2. The following is an examiner's statement of reasons for allowance:

While Krasnick (Patent Application Publication No. 2002/0032592) discloses a system for planning and managing online meeting to permit multiple clients access to a wide variety of automated meeting-related services, and customization via a communication network. The system collects data from a client, stored in a database, and analyzed by a meeting management program according to the client's preferences. Krasnick does not teach capturing commitments made by meeting participants; and processing queries related to levels of fulfillment of requirements.

And Ludwig (Patent No. 5,867,654) teaches a multimedia collaboration system that facilitates distributed face-to-face collaboration. The system tightly integrates a carefully selected set of multimedia and collaborative capabilities, principal among which are desktop teleconferencing and multimedia mail. Ludwig does not teach capturing commitments made by meeting participants; and processing queries related to levels of fulfillment of requirements.

Neither of these references taken either alone or in combination discloses a method and device for managing information related to development of a product having all the claimed features of applicant's instant invention, specifically including: capturing commitments by meeting participants to perform the action items that defining the tasks to be perform during development of a product. In addition, the system includes an interface for processing queries related to levels of fulfillments of requirements encapsulated in product requirement objects by respective designs encapsulated in the design alternative objects; and the other limitations related

to these features in combination with the remaining elements and features of the claimed invention. Also, there is no motivation to combine the Krasnick reference with the Ludwig reference to meet these limitations. It is for these reasons that applicant's invention defines over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
